

# XADO Luxury Drive 10W-60 SYNTHETIC

Synthetic racing motor oil. Contains REVITALIZANT®.  
Applied to passenger cars and light trucks.

Application temperature range

**-25 °C** — **+55 °C**

## Advantages

- Specially formulated for engines of sports and racing cars.
- Designed for extreme operation conditions: intense acceleration dynamics, maximum power and high rpm, overheatings.
- Reliably lubricates and prevents "dry" friction of the engine parts under overloads.
- Due to the viscosity (SAE 10W-60), which is maximum possible for motor oils, provides reliable high-temperature sealing of the cylinder-piston group and minimal oil consumption through burning.
