

XADO Luxury Drive Black Edition

10W-40 SL/CI-4

Premium multigrade semi-synthetic oil with the AMC synergetic formula and extended operational characteristics. Applied to passenger cars, trucks, haulers, and buses.

4 L

Art.XA 22275

Packaging: 4 L — can.

Operational properties

Specifications:

SAE 10W-40	Mack EO-N	MB 235.27, 228.3, 229.1	Caterpillar ECF-2/ECF-1-A
API SL/CI-4	MAN M 3275, M 3271	Allison C4	MTU type 2
ACEA A3/B4/E7	Volvo VDS-3	Renault (RV) RLD-2/RLD	JASO DH-1
Global DHD-1	Detroit Diesel DDC 93K215	Cummins CES 20077/78	
Deutz DQC III-10	Voith Class A		

Application temperature range

-25 °C — **+45 °C**

Advantages

- Universally applied to various engines of passenger cars, minibuses, light and heavy trucks, haulers, and buses.
- Especially effective for multigrade application in LPG (Liquid Petroleum Gas) engines, including modern ones (equipped with turbocharger, intercooling, diesel engines with direct injection, as well as multivalve engines).
- Recommended for application in new engines for optimal run-in (without metal losses in form of shavings) and preserves its perfect condition during the whole operation period.
- Due to the 2D sliding agent, considerably increases fuel economy, reduces friction losses, especially by engine start and at idle.
- Universally applied to gasoline, diesel, and LPG (Liquid Petroleum Gas) engines of vehicles.
- Increases compression in cylinders, engine power and acceleration capability.
